PROPOSED RESOLUTION

TO ADOPT THE GOOD FOOD PURCHASING POLICY

WHEREAS, Cook County strives to improve the health of all its residents through services and policies

that promote health and well-being; and

WHEREAS, The Chicago Metropolitan Agency for Planning (CMAP) recommended the creation of sustainable local food systems in its *Go To 2040* Comprehensive Regional Plan; and

WHEREAS, The Cook County Commission on Social Innovation, through its internal procedure reviewed, and now recommends, the adoption of a Good Food Purchasing Policy; and

WHEREAS, The Cook County Commission on Social Innovation found that sustainable food is ecologically sound, economically viable, and socially responsible; and

WHEREAS, The Cook County Commission on Social Innovation found that the health and well-being of residents can be supported by the creation of a sustainable local food system; and

WHEREAS, Cook County strives to promote safe, healthy and fair work environments for its workforce; and

WHEREAS, The Good Food Purchasing Program (GFPP) was developed in 2012 to encourage public institutions to procure food produced through values-driven purchasing standards and to support successful implementation through technical assistance and verification; and

WHEREAS, Good Food is defined by GFPP as food that is healthy, local, fair, sustainable and humane, with foods that meet the dietary guidelines for Americans, provide freedom from chronic ailment and are delicious and safe, and where participating food suppliers are evaluated and held accountable for ensuring fair compensation and fair treatment of their workers, and that those workers are free of exploitation, and where Good Food is available to purchase for all income levels and high-quality food is equitable and physically and culturally accessible to all, and where food is produced, processed, distributed, and recycled locally using the principles of environmental stewardship (in terms of water, soil, and pesticide management); and

WHEREAS, Good Food values prioritize nutrition, affordability, geography, and sustainable production practices including sound environmental practices, fair prices for producers, safe and fair working conditions for employees, and humane conditions for animals; and

WHEREAS, Good Food purchasing refers to the sourcing and purchasing of foods and beverages, and food and beverage service contracts, procured by County Departments and Agencies; and

WHEREAS, In participating in the Good Food Purchasing Program, Cook County will help support a regional food system that is ecologically sound, economically viable and socially responsible, and will have an impact on the availability of local, sustainable food; and

WHEREAS, There exists in the food and composting industries limited diversity in the ownership,

production and distribution channels; and

WHEREAS, People with arrest and conviction records face significant employment challenges; and

WHEREAS, There is a need to preserve urban and peri-urban farm land with equitable minority community ownership and control; and

WHEREAS, There are significant barriers to entry into the food industry at the ownership level, including access to capital and information, expertise and relationships, resulting in a need for capacity building for disadvantaged and under-capitalized businesses; and

WHEREAS, There are a number of tax credits available at the federal, state, county and city level to incentivize investment in distressed communities and to hire very low- income employees, employees with past criminal records, etc.; and

WHEREAS, It is recognized that the significant buying power of public institutions across the country can reform the food system, create opportunities for smaller farmers and low-income entrepreneurs of color to thrive, provide just compensation and fair treatment for food chain workers, support sustainable farming practices, reward good environmental stewardship including limiting food waste and increasing composting, and increase access to fresh and healthy foods; and
